Dear Jan,

2/27/84

On your wife's surgery, it is very important for you to be very patient now because she will be undergoing some trying times that, with your help, can be made much easier for both of you.

I'm not sure but I think the FBI's backlog now is not a year, is really much less, so when you are near a copier, please send me copies of your request and their letters and I'll check for you and let you know. It may be helpful in establishing tha they are still playing dirty tricks with JFK requests. I'll make copies and send them to my lawyer.

While the name Adelson sounds familiar, I can't place it.

I don't remember ever hearing of Michael Growns, or anything that sounds like that.

But why don't you accept his dadds invitatuon to look athhis stuff?

I did not take in the JFK schmalz on TV because I knew it would be worthless. Better things to do with what time I have.

Best wishes,
